Partnership Center (GDPC)

2017  **JAN** Relocated to Sejong

2018  **OCT** 40th Anniversary of KRIHS
JUL Inauguration of 16th President, Hyun-Soo Kang

KRIHS's Contribution to Economic Growth and Territorial Development in Korea

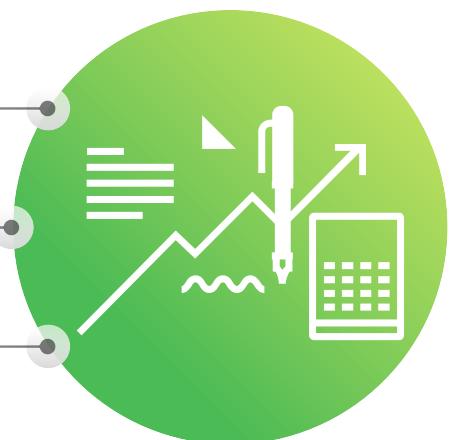

A large, high-angle photograph of a coastal city at sunset. The city is built on a peninsula, with numerous buildings, roads, and a bridge visible. The sky is filled with warm, orange and yellow hues from the setting sun, and the water reflects these colors. In the background, dark silhouettes of mountains are visible against the sky.

Research Units⁰²

Policy-oriented

Evidence-based

Innovative

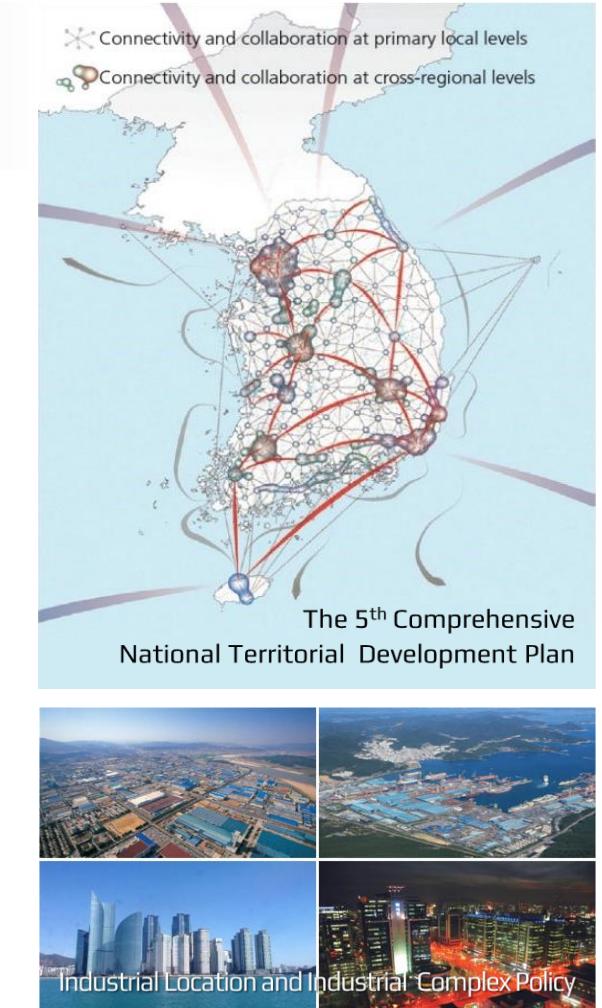

National Territorial and Regional Research Division

conducts research on short and long-term territorial and regional development policy

Affiliated Centers

- National Territory Planning Evaluation Center
- Industrial Location Research Center

Urban Research Division

conducts policy research to enhance urban vitality and improve urban infrastructure
for sustainable urban development

Affiliated Centers

- Public Land Research Center
- Urban Regeneration Research Center

National Territorial Environment & Resource Research Division

leads a comprehensive research effort in areas of public interest such as clean national territory and response to climate change, and water management

Affiliated Centers

- National Disaster Prevention Research Center
- Water Resources Research Center

Disaster Prevention System

Water Resource Management

Green Infrastructure

Housing & Land Research Division

conducts national-level policy research to lead the development of housing and land policy

Affiliated Centers

Real Estate Market Research Center

Real Estate Market Analysis and Policy

Research Area

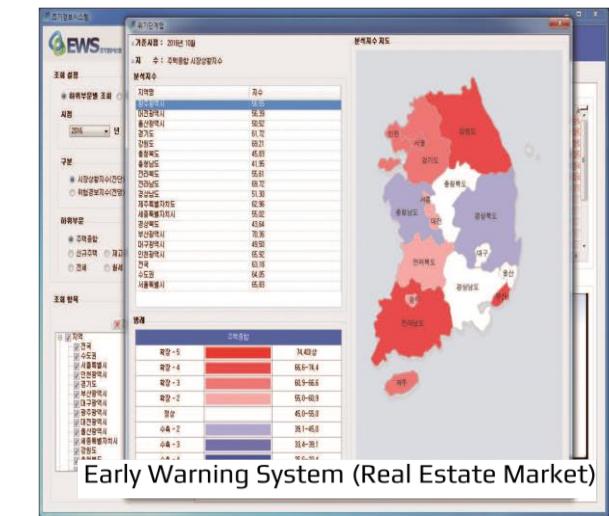

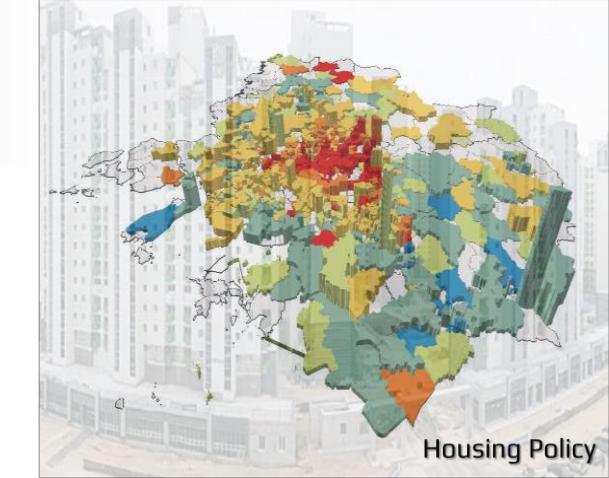

Comprehensive Housing Plan and Policy

National Housing Survey

Land Management and Development Policy

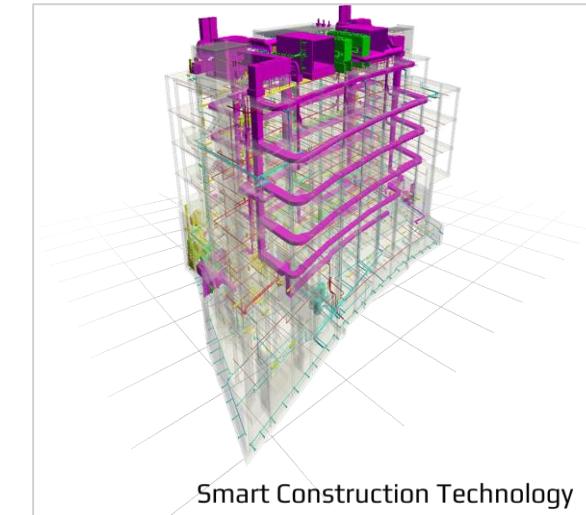

Construction Economy & Industry Research Division

aims to respond to changes in the construction environment
and present a vision for the construction industry's future

Affiliated Centers

- Fair & Innovative Construction Research Center
- Public–Private Partnership Research Center

National Infrastructure Research Division

guides transportation infrastructure policies and leads the formulation of key transportation policies and plans

Affiliated Centers

- Road Policy Research Center
- Smart Infrastructure Research Center

Geospatially Enabled Society Research Division

aims to be the hub of the National Spatial Data Infrastructure and ecosystem of geospatial knowledge

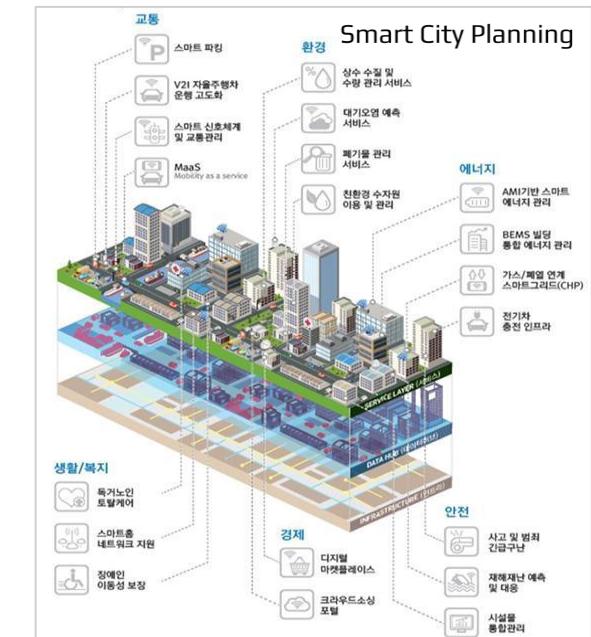

Affiliated Centers

- Smart City Research Center
- Center for Geospatial Data Analytics & Simulation

National Spatial Data Infrastructure (NSDI)

Global Development Partnership Center

is committed to enriching urban knowledge and improving the urban and regional policies of partner countries based on Korean urban development experiences
